

DOMAINE DU GRANIT

LES GARANTS

Domaine du Granit has been in existence since 1924, but the family already had winemakers working in the fields since 1918.

With the 4th generation of winemakers on this domain, they are making the best wine possible with modern techniques that are associated with old vinification methods passed down from parents and grandparents. The goal is to maintain the quality and typicality of Moulin à Vent, Fleurie, Chenas, and Saint Amour that is worthy of reputation for these great wines.
